

DOMESTIC SCHOOL STUDENT GROUP PROGRAMMES 2024

Ever wondered what lives in your backyard? Join us at Cairns Koalas & Creatures to find out! Our keepers will introduce students to some of our most interesting local animals and teach students about their habitats.

An educational presentation is included for the entire group. The presentation will primarily focus on some of the reptiles at Cairns Koalas and Creatures, unless a different topic is requested in advance.

Presentations will be personalised to each year group and specific class topics to help children to understand the features of different animals and their habitats. Let us know at the time of your booking if you would prefer to have our wildlife keeper present one of these three topics. Environmental Adaptions, Life Cycle or Where do they live?

Students will have an opportunity to touch and potentially hold some of the animals during and after the show. They will then be able to wander around the educational venue at leisure.
